LIMNet

ACTIVITIES

WORKSHOP DELIVERY

Join our group on LINKEDIN for updates

COMPANY ASSISTANCE

From 'free' assistance through to student and graduate placements

SECTOR REVIEWS

Are underway and will be reported at the end of the project

APPLICATION DEVELOMENT

Project partners are experienced in writing applications and identifying potential partners

Low Impact Materials Network

LIMNet is an A4B (Academia for Business) Knowledge Exchange Partnership funded by the Welsh Government. **LIMNet** covers the following different sectors, **smart and biomimetic materials**, **3D printing and fabrication** and **building and construction**. **LIMNet** is a partnership of three Welsh academic institutes; the BioComposites Centre at Bangor University, Swansea University and the University of South Wales.

LIMNet aims to identify opportunities for growth and collaboration within and between these sectors both for academic institutes and companies within Wales. The network aims to build capacity by forming collaborations and seeks to identify project partners for research through Technology Strategy Board calls and Horizon 20/20 bids.
